11/1/2011	24	2006-0123FG	Frontstreet Mtn. Development, LLC/FSMD	Johnsburg		LI	5	No	For Phase 1 A residential	
11/1/2011	16	2011-0123	Town of Inlet	Inlet		MI	2	No	The project involves the creation of the Hamlet of Inlet Sewer District and the construction of a sewage treatment plant, installation of a sewer collection system, including three pump stations, and the discharge of treated water from the sewage treatment plant. The portions of the project located in Moderate Intensity constitute a major public utility use which is a class A regional project requiring an Agency permit. The portions of the project located within the NYS Route 28 right-of-way are subject to Section 814 of the Adirondack Park Agency Act and require an 814 Order. A wastewater treatment plant is proposed to be located in the municipally owned Fern Park and two alternative locations for the discharge of the treated water from the sewage treatment plant are proposed. The first discharge alternative involves crossing the outlet between Fifth and Fourth Lakes using a directional drilling method and installing underground piping through Arrowhead Park. The discharge pipe will be installed approximately 500 feet into the waters of Fourth Lake. The second alternative involves discharging the treated water from the sewage treatment plant into the outlet between Fifth and Fourth Lakes. NYS Department of Environmental Conservation and the US Army Corps of Engineers have been involved in the review of this project.
