<i>Permit issued</i>	<i>EPS</i>	<i>Number</i>	<i>Applicant</i>	<i>Town</i>	<i>A</i>	<i>B</i>	<i>LUA</i>	<i>Schedule Meeting</i>	<i>Agency</i>	<i>Description</i>
4/20/2012	31	2011-0156	Independent Towers Holdings, LLC	Clifton		MI	2	Yes		A subdivision into sites involving the lease of a 100-foot by 100-foot parcel for the construction of a new 100-foot-tall (above existing ground level - AGL) telecommunications tower to be concealed as a simulated pine tree. The total height of the simulated tree will be 110 feet (100-foot tower plus 10-foot crown branch). The tower will be located within a 75-foot by 75-foot fenced-in equipment compound located 1,150± feet (0.22 miles) west of Columbian Road. A vegetative "no cutting" easement will protect trees in the vicinity of the proposed tower. AT&T Mobility - Upstate NY is proposing to install nine panel antennas on the tower (at a centerline height of 100 feet AGL) and construct a 20-foot x 11.5-foot equipment shelter along with a backup generator. St. Lawrence County Office of Emergency Services is proposing to install one 5-foot-tall whip antenna to the top of the tower (total height 105 feet AGL). Access to the facility will follow an existing trail, except where deviation is necessary to avoid wetlands, and be upgraded to a 1,550-foot-long gravel driveway to accommodate construction and service vehicles. Underground utilities will be located along the 12-foot-wide driveway and within the 30-foot-wide access and utility easement. Room for four additional carriers is available both within the compound and on the tower. Project plans show how Verizon Wireless equipment would fit on the tower (at a centerline height of 90 feet AGL) and in the compound, though they are not part of the application.
4/23/2012	25	2004-0216A	McCavanaugh Pond Club	Waverly		RM	5	No		Re-stocking of triploid grass carp in McCavanaugh Pond, Dickman Pond #1 & Dickman Pond #2.
4/24/2012	29	2011-0182	Travaglini, Thomas & Christine	Black Brook		LI	3	Yes		Variance for construction of a single-family dwelling within the 75 foot shoreline setback of Silver Lake.
4/25/2012	28	2012-0044	The Fund for Lake George	Bolton		UW	2	No		The installation of benthic barriers over 4.4± acres of lake bottom for purposes of controlling the invasive nonnative Asian clam ( <i>Corbicula fluminea</i> ). The project is expected to begin in the spring, 2012 with a secondary treatment in the fall, 2012. Additional spot treatments may occur in 2013.
4/25/2012	28	2012-0049	The Fund for Lake George	Bolton		UW	2	No		The installation of benthic barriers over 1.0± acres of lake bottom for purposes of controlling the invasive nonnative Asian clam ( <i>Corbicula fluminea</i> ). The project is expected to begin in the spring, 2012 with a secondary treatment in the fall, 2012. Additional spot treatments may occur in 2013.
