**PUBLIC INFORMATION MEETING**  
**RECONSTRUCTION OF**  
**WHITEFACE MOUNTAIN VETERANS MEMORIAL HIGHWAY**

**WEDNESDAY, DECEMBER 18, 2013 - 6:30 TO 8:30 PM**  
**WHITEFACE MOUNTAIN BASE LODGE, AU SABLE ROOM**  
**5021 NEW YORK 86, WILMINGTON, NY**

The New York State Department of Transportation (NYSDOT) is currently designing a project to reconstruct and rehabilitate the Whiteface Mountain Veterans Memorial Highway (NY State Route 431) beginning in 2014. The project will involve the full length of Veterans Memorial Highway from Route 86 to the top of Whiteface Mountain. We are hosting a public information meeting on December 18, 2013 in the Au Sable Room at the Whiteface Mountain Base Lodge to provide more information on the project and answer any questions you may have about it.

Construction is expected to begin in the spring while the tolled portion of the Highway is still closed for the winter, and is expected to continue through the 2014 construction season and possibly into 2015. During construction the non-toll portion of the highway will remain open at all times, and all properties in the area will be accessible to residents, visitors, delivery people and emergency vehicles. The toll portion of the highway is also expected to be open to the public during construction, with scheduling to be determined.

For more information, please contact Project Manager Geoff Wood at 518-457-8900 or [geoffrey.wood@dot.ny.gov](mailto:geoffrey.wood@dot.ny.gov), or plan to join us on December 18th.
