NOTICE OF VACANCY

TITLE: Supervisor of Natural Resource Analysis **GRADE:** SG-27 (\$97,826)

TYPE OF APPOINTMENT: Provisional/Permanent **UNIT:** PST/PEF

LOCATION: Ray Brook, Essex County, NY

POSTED: May 8, 2022 **REMOVE:** May 31, 2022

JOB DESCRIPTION: The position directs and supervises Agency project review, research, and field work through oversight and coordination of the staff in the areas of wetland protection and water quality analysis. The supervisor maintains and applies scientific information to evaluate the environmental impact on pending actions, proposed projects, regulations and policies. The supervisor manages staff work in the Resource Analysis and Scientific Services unit to ensure a high level of integration with the Agency's planning, legal, enforcement and regulatory services and provides strategic planning assistance within the Agency. The supervisor provides scientific background and material to advise the agency on policy and legislative issues in areas such as aquatic invasive species, wetlands, and climate change. The supervisor participates in outreach in the area of environmental education. The supervisor leads the staff team to address ecological trends and analyses and develops outside funding sources and partnerships with other agencies and organizations. The supervisor provides oversight to the Agency's management of the Wetlands Program. The supervisor can serve as the primary liaison and coordinator to the Federal Environmental Protection Agency when federal funding is involved. The supervisor serves as the agency liaison with other groups performing natural resource analysis within the boundaries of the Adirondack Park.

QUALIFICATIONS: A Bachelor's degree in natural resource planning or related field and five years of experience, including two years of supervisory experience, in natural resources or regional planning with responsibility for analyzing proposals.
