This list must include landowners whose property would otherwise adjoin the project site but is located across a public road or right-of-way from the site. Attached is a sheet which should be used to provide the required list of adjoining landowners. (This information is typically available from the Real Property Tax Services at County Offices or from the Town/Village assessors.)

10. Project Site History:

As part of its review of the project, Agency staff must understand the history of the project site. If the project site was part of a larger parcel on May 22, 1973 (the enactment date of the Adirondack Park Agency Land Use and Development Plan), the exact property boundaries of the larger parcel and the size of all buildings on that date must be established.

- a) State the current acreage of all connected lands owned by the current landowner, even if the parcels have different deeds and/or tax map numbers and even if they are larger than the project site: _____ acres

- b) As of May 22, 1973, did the owner at that time own any adjoining property, including properties on the opposite sides of public roads?

Provide, as **Attachment D**, a full scale copy of a survey map or the current real property tax map clearly showing the property boundaries of the project site and any tax parcel or lot that the project site was part of on May 22, 1973.

d) Are there buildings on the total contiguous landholding now owned by the present landowner?

Date of Construction	Size (sq. ft.)	Height (ft.)	Type/Use (e.g., single family dwelling, store, garage)

Describe any other structures which existed on the property as of August 1, 1973 which have since been removed or destroyed and their use (e.g., residential, commercial). Include the date that the structure was removed or destroyed:

If yes, provide a location map, project description, site plan map, and recent photographs keyed to the location map to the New York State Office of Parks, Recreation and Historic Preservation (OPRHP) as part of consultation required by the State Historic Preservation Act. Please be advised that the Agency cannot deem an application as complete until the OPRHP's determination and/or recommendations for historic resource impact mitigation have been provided to the Agency.

12. Shoreline:

Shoreline means that line at which land adjoins water of lakes or ponds or navigable (by boat or canoe) rivers and streams. There are minimum shoreline vegetation cutting restrictions, lot widths, structure setbacks, sewage disposal system setbacks and shoreline access requirements under the Adirondack Park Agency Act and regulations implementing the NYS Wild, Scenic and Recreational Rivers Act. These shoreline protection standards are measured from the mean high water mark (MHW - the average of the annual high water levels). Please contact Agency staff for requirements. If the project site has shoreline and you propose construction of any kind within 100 feet of the shoreline (150 feet for Recreational Rivers, 250 feet for Scenic Rivers), the MHW will have to be established and shown on a site plan map in order to have a complete application. At the project sponsor's request, Agency staff will determine the MHW at the project site or you can have the determination made by a NYS licensed land surveyor. If you are unsure of navigability, please contact Agency staff.

- a) Does the project site contain any navigable water?
 No (If no, go to Section 13-Wetlands)
 Yes. Name of water body: _____
Length of shoreline on the project site (as it winds and turns): _____ feet

- b) Is any portion of the shoreline currently being used or proposed for use by others for deeded or contractual access to the water body?
 No
 Yes. If yes, identify and describe all shoreline access parcels, the number of lots having access to each parcel and the dates access was granted. Also, please provide a complete copy of all deeds for all properties which have been granted access to the water body via a shoreline access parcel:

- c) Will any vegetation be cut or removed within 35 feet of a lake or pond or navigable river or stream or within 100 feet of a designated NYS Wild, Scenic or Recreational River? (If you are uncertain whether the shoreline is along a designated river, check the Adirondack Park Land Use and Development Plan Map, or the APA Regulations Appendix Q-6, or contact Agency staff.)
 No
 Yes. If yes, describe type, amount and location of vegetation to be removed:

13. Wetlands:

- a) Are there any wetlands on the project site?
 No (If no, go to Section 14-Other Regulatory Permits and Approvals)
 Yes. If yes, answer the following questions. The wetland boundaries as delineated and/or confirmed by Agency staff must be shown and labeled on the Site Plan Map.

b) Are any of the activities listed below proposed to occur within the boundaries of a freshwater wetland?

No

Yes. If yes, check all that apply:

- Draining; dredging; excavation; removing soil, peat, muck, sand, shells or gravel
- Dumping or filling with soil, stone, sand, gravel, mud, or fill of any kind
- Erecting structures, building roads or driveways, driving pilings, or placing any other obstructions
- Clearcutting of more than three acres: state number of acres _____
- Applying pesticides or fertilizers
- Constructing a wastewater treatment system or discharging a sewer outfall

If yes, please also provide a detailed written description of the measures taken to avoid or minimize wetland impacts:

If "Yes" was checked for any of the questions in this section, a compensatory wetland mitigation plan prepared in accordance with the "New York State Adirondack Park Agency Compensatory Mitigation Guidelines" may be required. A copy of these guidelines is available on the Agency's website (www.apa.ny.gov) or upon request.

14. Other Regulatory Permits and Approvals:

The Agency cannot approve a project which has been denied a permit or which is a prohibited use under local zoning requirements and other local laws or ordinances. The Agency will also recognize community goals expressed in a formally adopted land use plan. The project should be designed to the regulatory requirements of other involved agencies.
