

Adirondack Park Agency

Planning for Solar Development – Adirondack Planning Resources

The Adirondack Park Agency has resources to help your community plan for solar. Through its Local Government Services program, the Agency can guide and assist Adirondack municipalities on issues related to comprehensive planning, zoning, and land use enforcement. Additionally, Agency staff are available for informal consultations on any land use topic, including solar generation facilities. To contact the Agency's Local Government Services Unit, contact the Agency at 518.891.4050 or email LocalGovernment@apa.ny.gov.

The below resources can provide important guidance for communities seeking to plan for solar energy projects:
