- (1) Call to Order
- (2) Pledge of Allegiance
- (3) Introductions
- (4) Public Comment

The Agency encourages public comment that will assist us in improving our practices, procedures and our responsibility to the public. However, to promote fundamental fairness, and in consideration of the substantial time available for written comment, the practice of the Agency is to exclude public comment on matters pending decision until the conclusion of Agency business. This includes: (1) any permit which is before the Agency for action at this meeting; (2) any enforcement case which is before the Agency; (3) any matter for which an adjudicatory public hearing has been convened. Conduct of the meeting is always at the discretion of the Chairwoman or Committee Chairperson.

2012-128 Essex County, NYS Police and NYSEG
(L. Walrath) Essex/Warren/Washington: Multiple towns
 Hamlet/Resource Management/Industrial Use/Wild Forest
 §§ 809, 814

Installation of telecommunications infrastructure at 14 locations in 12 towns within the Adirondack Park as part of a public safety radio system and shared microwave network. The microwave network will be utilized by Essex County, New York State Police, and New York State Electric and Gas. The proposal includes the removal of existing antennas at sites located throughout the Adirondack Park and the installation of approximately 57 new antennas. The proposal also involves the installation of a microwave reflector panel at an undeveloped site at Saddle Hill (Town of Lewis), the replacement of a 185± foot tall tower with a new tower on adjoining property but in the same vicinity at Belfry Mountain (Town of Moriah), the replacement and expansion of ski patrol building on the summit of Little Whiteface Mountain (Town of Wilmington), and the replacement and extension of the height of existing towers at Mount Morris (Town of Tupper Lake) and Wells Hill (Town of Lewis). (Note: the proposed towers at these sites are immediately adjacent to the existing towers.) In addition, several other parties will be co-locating antennas and associated ground infrastructure at facilities located on private land, including Belfry Mountain and Wells Hill. Other than the microwave reflector panel at Saddle Hill all infrastructure is proposed to be co-located on existing buildings or other existing telecommunications infrastructure, or is proposed to be immediately adjacent to existing telecommunications infrastructure.
