RE: Draft Agency Guidelines and Policy for the use of the Aquatic Herbicide Renovate OTF to Manage Eurasian Watermilfoil

Attached is a review copy of the Draft Agency Guidelines and Policy for the appropriate use of the herbicide Renovate and Renovate OTF to manage Eurasian watermilfoil, an aquatic invasive plant.

This staff draft will be presented during the October meeting of the Park Policy Committee as a first reading to the Board. The draft follows on discussions with the Board in the Fall of 2012 which pointed to the need for a guidance document for use by the public in planning for aquatic herbicide use in the management of Eurasian watermilfoil.
