Deputy Director, Planning

DATE: April 7, 2015

Re: State Land Committee Agenda

The State Land Committee will be presented with two UMP amendments. One is for the Jessup River Wild Forest and proposes to provide better access to the area's snowmobile trail network by allowing public motor vehicle access along 900 feet of road. The second is for the Pepperbox Wilderness and proposes the construction of a lean-to near Gregg Lake and the designation of a foot trail to that lean-to. Staff have found both of these amendments to be compliant with the State Land Master Plan and will request authorization to proceed to public comment.

The State Land Committee will also be introduced to a draft UMP for the Alger Island Campground and Fourth Lake Day Use Area. It has been a pleasure to work with Josh Houghton and Mike Buzzelli in the development of this plan and the Agency staff believe this plan will serve as a sound template for future public campground UMPs. Josh has spent a great deal of time working with the Agency to understand APSLMP guidelines and criteria, which is reflected in his work. This presentation is for information only.
