Jennifer Hubbard,,

Hello Jenny: (may I be so bold)

I received a call from John Birch this past week requesting that we proceed with the hearing on" zoom" in June. As I have stated before, I am not comfortable having a "Zoom" hearing as I don't feel I can represent myself adequately in this format. Nor do I think members of the agency board can grasp the complexity situation at hand and the consequences of a negative ruling on their part.

The NYS govt. has issued an " open for Business" proclamation for everything by end of May. Schools will open, business will open and I see no reason the APA can't hold public meeting at this point. I assume that all employees and board members of the APA are vaccinated and I am as well.

I will also again reference a 3/24/20 letter I sent you asking to have this dismissed for all the same reason then as now ,, and even more so as I have further researched the actions of the APA.

(Note the 4 story building 27 feet front the water on Flower lake! Billionaire money ,, payoff,,etc)

Hope all is well in your life..

Regards George Carrothers
