Instructions for Completing Part 1

Part 1 is to be completed by the applicant or project sponsor. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either “Yes” or “No”. If the answer to the initial question is “Yes”, complete the sub-questions that follow. If the answer to the initial question is “No”, proceed to the next question. Section F allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the applicant or project sponsor to verify that the information contained in Part 1 is accurate and complete.

A. Project and Applicant/Sponsor Information.

Name of Action or Project: Adirondack Park Agency General Permit and Order for Certain Minor Regulated Activities in APA - Jurisdictional Freshwater Wetlands		
Project Location (describe, and attach a general location map): Adirondack Park, New York		
Brief Description of Proposed Action (include purpose or need): The Agency proposes to issue a general permit (GP 2024G-1) and order for certain regulated activities occurring in wetlands subject to Adirondack Park Agency (APA) jurisdiction or in adjacent areas where the activities could substantially impair jurisdictional wetlands. The existing general permit for Minor Regulated Activities in APA Jurisdictional Wetlands (GP 2002G-3AAR) will be revoked and replaced with GP 2024G-1. Where the sole basis of Agency permit jurisdiction is for minor activities involving or affecting jurisdictional wetlands, project sponsors must otherwise go through a major permit process even when those activities involve no permanent wetland fills or involve minor wetland fills with compensatory wetland mitigation, where appropriate. Such activities usually have de minimis impacts on existing wetland resources and are routinely approved, with conditions, by the Agency. The simplified process proposed herein allows project sponsors to receive expedited permits and allows Agency staff more time to focus on projects that have greater potential for significant impacts to Park resources.
