Applicability

The Large-scale Subdivision Application applies to all subdivisions involving five or more proposed lots, parcels or sites on Resource Management lands, ten or more proposed lots, parcels or sites on Rural Use lands, or twenty-five or more proposed lots, parcels or sites on Low Intensity Use lands.

Background Information

The application process is intended to encourage the development of projects in compliance with the Agency’s review criteria, including protection of open space, wildlife, and habitat resources, and in accordance with the objectives of conservation design. The project sponsor will benefit from the opportunity to review conceptual designs and public comment with Agency staff early in the application process. Following these initial steps, the application process will lead to the development of preliminary and detailed design plans before presentation of the project to the Agency board. This review process is intended to improve efficiency and to help avoid unnecessary costs to the project sponsor.

For additional information related to development considerations that the Agency must take into account when reviewing subdivision proposals, please see https://www.apa.ny.gov/Documents/Guidelines/DAP-DevelopmentConsiderations.pdf.

Pre-Application Meeting

Project sponsors are strongly encouraged to contact the Agency to schedule a pre-application meeting with staff prior to submission of the Large-scale Subdivision Application. Staff are available to explain the application process, help focus project design development, and answer questions.

Please contact the Agency’s Regulatory Programs division to schedule a pre-application meeting.
Application

Part I – Submission of Initial Project Site Information and Conceptual Designs

Part I of the Large-scale Subdivision Application requests maps depicting resources and existing features, a project narrative, and conceptual design drawings of the proposal and potential alternatives. The conceptual design of the proposed project should avoid impacts to the resources on and off the project site. The application provides various references for source information, and Agency staff are available to assist in the use and interpretation of this resource material.

A site visit with Agency staff will be scheduled upon receipt of Part I of the application, and will occur prior to the end of the public comment period (see Part II below).

Part II – Public Comment

Part II of the Large-scale Subdivision Application requires a public comment period. Upon receipt of Part I of the application, a notice of the opportunity for public comment will be published in the Environmental Notice Bulletin and mailed to adjoining landowners and municipal officials. The application materials and notice of the opportunity for public comment will also be posted on the Agency’s website.

The application will be considered received upon the close of the public comment period. Alternatively, upon written notification to the Agency, the project sponsor may choose to provide a narrative and updated plans in response to any public comment. In this instance, the application will be considered received upon submission of the project sponsor’s response.

Review Process

Upon receipt of the Large-scale Subdivision Application (Part I and Part II), the Agency may issue an information request within 15 days based on its analysis of the conceptual design drawings and project site maps, results of the site visit, and any concerns identified through public comments. This information request, and any subsequent information requests, will seek further clarification and evaluation of the project sponsor’s proposal and alternatives, and will identify required site investigations and reports necessary for the analysis of impacts to Park resources. The project sponsor will also be required to submit final design plans for the proposal.

For a list of issues that may be addressed as part of the Agency’s information requests, including the types of site investigations, reports, and plans that may be required, please see the attached Potential Information Request Topics.

At the time the application is deemed complete, the application will be publicly noticed pursuant to §809(2)(d) of the Adirondack Park Agency Act, and the required time periods for final Agency action on the proposed project will begin.

APPLICATION
PART I

Instructions: Please answer all of the following questions and provide all applicable attachments. Submit three completed copies of this application and all required attachments to the Agency. The application, including all maps, plans, photographs and other graphics, must also be provided in electronic format (Adobe Acrobat or PDF) unless otherwise agreed to by Agency staff. The proposed project may not be undertaken until a permit has been issued by the Agency.

1. Project Sponsor(s):*
   Name(s): Eric Stackman
   Address: PO Box 402422
   Miami Beach FL 33141
   Telephone: 305-965-0926
   E-mail: ericstackman@bellsouth.net

* A project sponsor is a person with a legal interest in a property who makes application to the Agency for the review of a project proposed on the property. Documentation demonstrating a legal interest must be provided, such as a current deed or purchase contract.

2. Current Property Owner(s):**
   Name(s): ______________________
   Address: ______________________
   Telephone: _____________________
   E-mail: ________________________

   (if different than Project Sponsor)

** List all names on the current deed of record.

3. Project Sponsor’s Authorized Representative:

   By filling in the name and address below and signing this application, the project sponsor is authorizing the person named below to act as his/her agent in all matters relating to this permit application before the Adirondack Park Agency. The project sponsor acknowledges that all contact regarding the application will be through the Authorized Representative. The project sponsor is, however, ultimately responsible for the accuracy of the information contained in this application and for compliance with all terms and conditions of any permit issued to him/her by the Agency.

   Name: ERIC STACKMAN
   Address: PO BOX 402422
   MIAMI BEACH FL 33140
   Telephone: 305-447-2470
   Fax/E-mail: ERICSTACKMAN@BELLSOUTH.NET

   Name: ROBERTA ALBA
   Address: 6540 NW 170TH TERRACE
   MIAMI FL 33015
   Telephone: 305-331-2587
   Fax/E-mail: ralba@robertaconsulting.com

   Name: CHRISTOPHER G. BERGA - BERGA LAW PA
   Address: 121 ALHAMBRA PLAZA SUITE 1500
   CORAL GABLES FL 33134
   Telephone: 305-901-1620/305-901-1720 Direct
cberga@bergalaw.com
4. **Project Site Location/Identification** (a project site usually consists of all adjoining properties owned by the current landowner(s), including properties separated by a public road):

Road/Highway:  STATE ROAD 9N ____________________________________________
Nearby Waterbody:  AUSABLE RIVER ________________________________________
Town/Village:  TOWN OF JAY/ HAMLET OF AU SABLE FORKS
County:  ESSEX _________________________________________________________
Size:  355.82 acres _______________________________________________________

Tax Map Designation (from the tax bill for the property):

Section: 17.2 Block: 1 Parcel: 4.000
Section: 17.2 Block: 1 Parcel: 5.100
Section: 17.2 Block: 1 Parcel: 20.111

5. **Project Sponsor’s Legal Interest in Project Site** (check the one that applies):

✓ owner   _____ signed purchase agreement holder
_____ lessee   _____ option holder   _____ other: (Identify: ______________)

6. **Prior Agency Contact:**

a) Has there been any previous contact or discussions with Agency staff regarding this project or project site, or has Agency staff visited the project site?

   ____ Unknown
   ____ No
   ✓ Yes.  Staff person’s name:  DEVAN KORN (EPS2) / THOMAS E. SAEHRIG
   Date of contact:  APRIL 6, 2021 (LATEST) / 2011 TO 2017

   AGENCY FILE A2007-5 / APA PREAPPLICATION REQUEST A2021-005

b) Has the project or project site been the subject of a past Agency action (e.g., permit, variance, jurisdictional inquiry, enforcement case, or wetland flagging)?

✓ No
_____ Yes.  If yes, provide the number and date:

Past Permit or Variance Number: ___________________ date: _____________
Jurisdictional Inquiry Number: ___________________ date: _____________
Enforcement Case Number: _________________________ date: _____________
Wetland Boundary Flagging: _________________________ date: _____________
CONCEPTUAL DESIGN INFORMATION

7. Resource and Existing Features Mapping and Inventory:

a) **Project Site Base Map** – at a stated scale appropriate to the project, provide a Project Site Base Map showing:

1. Property ownership boundary lines;

2. Boundaries of the project site (if not identical with the property boundaries);

3. Adjoining and adjacent landowners and owners of inholdings, if any;

4. All Adirondack Park Land Use and Development Plan Map land use area boundaries;

5. Local zoning districts;

6. All bodies of water (rivers, ponds, and lakes) and permanent and intermittent streams (based on USGS planimetric maps and as designated by New York State Department of Environmental Conservation);

7. Preliminary boundaries of all wetlands using freshwater wetland covertype maps prepared by the Adirondack Park Agency¹

*Please note that this information is subject to field verification, and there may be wetlands on the project site that do not appear on the Agency’s covertype maps;*

8. Significant terrestrial habitats

*Recommended resources include: 1) the North Atlantic Landscape Conservation Cooperative (NALCC) Land Use Planning Tools for Municipalities in New York State² for mapping; 2) Northeast Habitat Guides: A Companion to the Terrestrial and Aquatic Habitat Maps³ for a description of habitat types; and 3) the New York Natural Heritage Program⁴ for classification descriptions;*

³ [https://rcngrants.org/sites/default/files/final_reports/RCN%202011-5%2C6%20final%20product%20NortheastHabitatGuides.pdf](https://rcngrants.org/sites/default/files/final_reports/RCN%202011-5%2C6%20final%20product%20NortheastHabitatGuides.pdf)
9. Existing facilities, buildings, and structures on the site (labeled with size, use, and date of construction);

10. Existing paved and unpaved roadways, driveways, and parking areas; and

11. Existing municipal or private water, wastewater, and utility infrastructure.

b) **Wetlands Map** - A high-resolution aerial photography interpretation of wetlands on the project site (available upon request from Agency staff).

c) **Soils Map** - Provide a map of the “Detailed Soil Map Units” present on the project site using the same scale as the Project Site Base Map. Soils mapping is available through the USDA’s Natural Resource Conservation Service web soil survey\(^5\) or in published soil surveys available at a local soil and water conservation service office.

d) **Slope Map** - At the same scale as the Project Site Base Map, provide 20-foot contours (or higher resolution where available) topographic mapping that is shaded to show slope categories of 0 to 8%, 8 to 15%, 15 to 25%, and greater than 25%.

e) **Critical Areas Map** - At the same scale as the Project Site Base Map, provide a Critical Areas Map depicting the following ecological, cultural, and sensitive resources:

1. A 100-foot buffer area from all lakes, ponds, rivers, streams and wetlands;

2. The following critical environmental areas identified in the Adirondack Park Agency Act:

   i. Areas within one-quarter mile of rivers navigable by boat designated to be studied as wild, scenic, or recreational;

   ii. Wetlands;

   iii. Areas at elevations of 2,500 feet or more;

   iv. Areas within 1/8 mile of tracts of forest preserve land or water classified as wilderness, primitive, or canoe in the Adirondack Park State Land Master Plan;

   v. For project sites located in Rural Use land use areas, areas within 150 feet of the edge of the right-of-way of federal or state highways;

   vi. For project sites located in Resource Management land use areas,

\(^5\) [https://websoilsurvey.sc.egov.usda.gov](https://websoilsurvey.sc.egov.usda.gov)
areas within 300 feet of the edge of the right-of-way of federal or state highways;

3. 100-year flood plains based on Federal Emergency Management Agency flood area maps;

4. Unique features, including gorges, waterfalls, and geologic formations; **NOT APPLICABLE**

5. Designated Wild, Scenic and Recreational River “river areas” (generally within one-quarter mile of the bank of a designated river or as otherwise described in Appendix Q-6 of the Agency’s regulations);

6. Rare or valuable ecosystems;

7. Significant wildlife habitats (deer wintering areas, significant avian nesting areas, vernal pools, connectivity and natural corridors, etc.);

8. Designated archeological areas, historic structures, and historic districts or landscapes;

9. Designated scenic vistas and other areas of local scenic significance;

10. Areas of the site presently visible from public view locations (roads, trails, waterways, etc.); and

11. Any renewable resource lands such as primary and principal aquifers and aquifer recharge areas, designated agricultural districts, significant agricultural lands, or public watershed lands.

f) **Site Analysis Mapping** - Provide a Site Limitations Composite Map at the same scale as the Project Site Base Map. This map should be developed by overlaying the previous resource maps and should identify areas most suitable for development, areas valuable for significant resources and open space, and areas with limitations to development (wetlands, slopes over 25 percent, lands within 100 feet of water features and wetlands, flood plains, etc.) through the use of overlay shadings.

g) **Natural Heritage Program Report** - Provide a narrative of New York Natural Heritage Program reported occurrences of rare, threatened, endangered, or exploitably vulnerable plants, and threatened, endangered, and special-concern animals. Include known unique natural communities and significant wildlife habitats (deer wintering areas, significant avian nesting areas, vernal pools, connectivity and natural corridors, etc.) on the project site and surrounding areas.

h) **Other Inventories and Classifications** - After consultation with Agency staff,
provide the following if necessary:

- **Bird Species Inventory** - Provide a list of bird species expected to be on the project site based on habitat requirements and geographical distribution. Please consult the 2000-2005 New York State Breeding Bird Atlas\(^6\) for a listing of species expected to be present.

- **Invasive Species Inventory** - Provide a list and a map of the location of any invasive species known on the project site, including any species identified on the NYS iMapInvasive website.\(^7\)

- **Lake and Pond Classification** - Provide the surface water classification of known lakes and ponds on the project site as determined by the Department of Environmental Conservation pursuant to 6 NYCRR Part 701. Please also provide additional information about the water bodies as found in the descriptions on the NALCC website\(^8\) and in the Northeast Habitat Guides: A Companion to the Terrestrial and Aquatic Habitat Maps.\(^9\)

- **Large Forest Blocks** - Provide a map at a regional scale that depicts the large forest blocks surrounding the project site. Please consult the NALCC Land Use Planning Tools for Municipalities in New York State.\(^10\)

8. **Project Description:**

Submit a brief narrative description of the proposed project and the project sponsor's land use objectives.

9. **Conceptual Design Plans:**

   a) Submit a to-scale sketch map of the project sponsor's preferred project design that shows proposed building envelopes, driveways, roads, limits of clearing, and other areas of disturbance, and avoids impacts to any sensitive resources identified through the Resource and Existing Features Mapping and Inventory. The preferred project design should minimize the creation of new areas of disturbance on the project site to the greatest extent practicable, and should concentrate development to the greatest extent practicable.

\(^10\) https://nalcc.databasin.org/galleries/16f2dbb5c7a948429f93a7fe69c7f299
b) Submit a series of to-scale sketch map alternatives that have been considered as part of the design process.

PROJECT SITE DOCUMENTATION

10. Deed(s):

Provide, as Attachment A, a copy of the current recorded deed(s) for the project site containing the recording information. Copies are available from the County Clerk’s Office. Also, if the project sponsor has an executed contract or agreement to purchase or lease the project site, please provide a copy in order to establish the sponsor's legal interest in the project site. (The purchase price and other confidential information may be blacked out.)

11. Adjacent Properties:

Provide, as Attachment B, a current list of the names and addresses of all landowners whose property adjoins the project site, along with tax map references (tax map section, block, and parcel numbers) based on the latest completed tax assessment roll. This list must include landowners whose property would otherwise adjoin the project site but is located across a public road or right-of-way from the site. Attached is a sheet that may be used for this list. This information is typically available from Real Property Tax Services at county offices or from Town/Village assessors.

12. Project Site History:

As part of its review of the project, Agency staff must understand the history of the project site. If the project site was part of a larger parcel on May 22, 1973 (the enactment date of the Adirondack Park Agency Land Use and Development Plan), the exact property boundaries of the larger parcel and the size of all buildings on that date must be established.

a) State the current acreage of all connected lands owned by the current landowner, even if the parcels have different deeds and/or tax map numbers and even if they are larger than the project site: N/A _____________ acres

b) As of May 22, 1973, did the owner at that time own any adjoining property, including properties on the opposite sides of public roads?

✓ No

____ Yes. If yes, provide the Tax Map References of these adjoining properties:

   Section: _____ Block: _____ Parcel: _____

   Section: _____ Block: _____ Parcel: _____

Page 10 of 15
c) Has any portion of the total as it existed on May 22, 1973 been conveyed, sold, given away or otherwise subdivided since that date?

✓ No

___ Yes. If yes, provide the following information for those lots or parcels (Use a separate 8-1/2" x 11" sheet of paper if necessary):

<table>
<thead>
<tr>
<th>Lot Number (from current tax map)</th>
<th>Date of Conveyance</th>
<th>Lot Size (sq. ft. or acres)</th>
<th>Was Conveyance by Gift or Sale?</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Provide, as Attachment C, a copy of all recorded deeds (not just abstracts) for the above conveyances back through May 22, 1973.

Provide, as Attachment D, a full scale copy of a survey map or the current real property tax map clearly showing the property boundaries of the project site and any tax parcel or lot that the project site was part of on May 22, 1973.

13. Deed Restrictions and Easements:

Describe and provide, as Attachment E, any current deed restrictions or easements associated with the project site.

Attach, as Attachment F, any proposed deed language that will restrict further subdivision or development on the project site and any other proposed deed restrictions or easements.

PROJECT SITE RESOURCES

14. Historic Resources:

Does the project site include any buildings that are more than 50 years old or involve any known archeological resources, or does the project site or surrounding area contain any structures or districts that are listed or deemed eligible to be listed on the State or National Register of Historic Places?

✓ Yes

No

Carnes Barn /Granite Co. shows on historical record photos as early as 1921

15. Other Regulatory Permits and Approvals:

The Agency cannot approve a project that has been denied a permit or that is a prohibited use under local laws or ordinances. The Agency will also recognize
community goals expressed in a formally adopted land use plan. The project should be designed to the regulatory requirements of other involved agencies.

**Local, State and Federal Agency Contacts:** Complete the following and indicate whether any of the following agencies have been contacted. Please provide copies of any applications and other correspondence between the applicant and the agencies listed below. Your APA application will remain incomplete until applications have been submitted to all involved agencies. Please also provide a copy of the relevant minutes from any local meetings at which the project has been discussed.

16. The Large-scale Subdivision Application requires a public comment period. Upon receipt of Part I of the application, notice of the opportunity for public comment will be published in the Environmental Notice Bulletin (ENB) and sent to adjoining landowners and municipal officials. The application materials and notice of the opportunity for public comment will also be posted on the Agency’s website. Public comment may address but is not limited to the following:

- The potential impacts associated with the project, including identification of the particular aspects of the project site that may be affected;
- Methodologies for assessing any potential impacts; and
- Reasonable alternatives to be considered.

The posted notice will include a deadline for submitting public comment that is at least 15 days and no more than 45 days from the date of publishing in the ENB. All comments will be forwarded to the project sponsor upon receipt. The application will be considered received upon the close of the public comment period or, at the request of the project sponsor, upon receipt of the project sponsor’s updated plans and written response to any public comment.
Required Signatures: Please submit required signatures with Part I of the application.

I HAVE PERSONALLY EXAMINED AND AM FAMILIAR WITH THE INFORMATION SUBMITTED IN THIS APPLICATION, INCLUDING ALL ATTACHMENTS. I BELIEVE THIS INFORMATION TO BE TRUE, ACCURATE AND COMPLETE. IN ADDITION, IN THE CASE OF ANY PROJECT SPONSOR, CORPORATION, LIMITED LIABILITY CORPORATION, PARTNERSHIP OR OTHER LEGAL ENTITY, I ALSO AFFIRM THAT I AM AUTHORIZED TO SUBMIT THIS APPLICATION ON BEHALF OF THAT ENTITY.

I HEREBY AUTHORIZE THE ADIRONDACK PARK AGENCY AND MEMBERS OF ITS STAFF TO ENTER ON THE PROPERTY DESCRIBED HEREIN FOR THE PURPOSES OF CONDUCTING SUCH INVESTIGATIONS, EXAMINATIONS, TESTS AND SITE EVALUATIONS AS IT DEEMS NECESSARY, AT REASONABLE TIMES, AND WITH ADVANCE NOTICE WHERE POSSIBLE, TO VERIFY INFORMATION CONTAINED IN OR RELATED TO THIS APPLICATION FOR A PROJECT PERMIT.

Signature of all Project Sponsors: (if not the landowners)

**Layers:**
- forest blocks web
**Project Description**
The overall site plan design goal is to maintain as much of the property's natural setting with the trails in a semi-private community. The phasing plan would be estimated in 3 phases - 25 to 35 homes from 1,2,3, along with roads, utility in each phase and the 4th phase to remain as a future. This would take place over 3 year period, per the medium scale guidelines for permitting.

**Conceptual Design**
Further below, we have attached the original development concept overlay on a map and the master site plan showing now all the PB on plan, within you will see 4 areas 1- townhomes 2- villas and 3 - estates and the 4th location would either will be future Mansions or hotel rooms with all location have a connection back to the club house which would be the main property amenity.

**Phasing**
1-20 townhomes - estimate 1800 sqft  
2-60 Villas with optional guest suite estimate 3500 sqft  
3- 18 Estates with optional guest suite estimate 6500 sqft  
4 - Future  
4A- 6 Mansion- custom estimate 8 to 10000 sqft  
4B- 6 hotel Building with 12 units each for a total of 72 units (1/10)

The scenario for 1,2,3, and 4A would be 104 PB used ,leaving 7 PB remaining overall  
The scenario for 1,2,3 and 4B would be 105 PB used, leaving 6 PB remaining over all  
Still having the amenity buildings – club house, barn, shed, green house as described prior we would subtract an additional 2 PB from the over count from either scenario as we have been discussing.
Density Projection
   a. The property is located in the Low Intensity Use under the Land Use Area Classification per the Adirondack Park Land Use and Development Plan (APLUDP). The Low Intensity Use allows (200) buildings per square mile which equates to 1 unit per 3.2 acres.

   The total acreage of both parcels equals 385 acres. The total number of units or lots equals 120. (The total acreage to calculate density is derived from all land area on the parcel – including wetlands, etc...).

   b. The technical minimum lot area for Low Intensity Use is 120,000 square feet involving less than 10 lots – would not require a permit. In the case of this project, it is most likely we will need a permit due to # of lots and Critical Environmental Areas (see below). Therefore, there is no minimum lot area – rather an overall density.

Use
   a. The APA Act outlines the primary and secondary uses for the Low Intensity Use classification (refer to APA Act pg 13, section 805). The uses are shown on the attached sheet.

Setbacks and Buffers
   a. The property does include a wetland system and several smaller individual wetland areas. These areas are considered Critical Environmental Areas (CEA) by the APA. Under the APA Act, almost all land uses require an Agency permit. There are ways to avoid this permit which we can discuss at a later time. Wetlands will need to be confirmed on site by Agency Staff. (major application form pg 7)

   b. Wild, scenic and recreational rivers and river areas. The property borders the East Branch of the Ausable River, which is designated as a Recreational River (refer to APA Rules and Regs, Appendix Q-6). The river buffer is ¼ mile or 1,320 feet. This buffer does not prohibit development rather requires jurisdictional review of the application.

Road Grade Standards
   a. Avoid locating driveways and roads on steep slopes (greater than 25%), preferably locate on slopes less than 15%; avoid greater than 4 feet cut and fills, avoid stream and wetland crossings.

   b. Final grade should not exceed 12% average grade over any 150 feet length, 15% over any length, and 3% within 50 feet of any intersection with public roads. Locate driveway/public road intersections where sight distances are safe.

   c. Install culverts with headwalls to maintain existing drainage patterns.

   d. Clearing and grading for driveways and roads must be done carefully to avoid soil erosion and visual impact problems.

   e. Utilities located in visually sensitive areas should be undergrounded and follow roads and driveways whenever possible.

Entitlement Process
   a. The proposed project would most likely be considered Class A due to the following:
      1. Land use and development located in the CEA’s listed above (wetlands and river buffer). (APA Act 29, 810c(1))
      2. The project involves 35+ acres of land (APA Act 29, 810c(3))

   b. Pre-Application Hearing to review project concept and ensuring awareness of Agency’s process and standards.

   c. Submit Application for Major Project

   d. Notification from Agency within 15 days of complete application.

   e. Once the application is complete, the substantial review will begin.

   f. Public Meetings are held on a monthly basis. The agency will determine if a public meeting is necessary

   g. The project – if greater than 50 lot subdivision – will require Board Approval vs Staff Approval.

ERIC CLARKE STACKMAN
7513 WEST TREASURE DRIVE
NORTH BAY VILLAGE FL 33141-

Joseph A. Provoncha
Essex County Clerk
THIS INDENTURE, Made the 24th day of March, Two Thousand and Six
Between, BRIAN LABRAKE, having an address of 119 State Route 372, Cambridge, New York 12816, and BRUCE LABRAKE, having an address of 721 Sailfish Road, Winter Springs, Florida, 32708
parties of the first part, and

ERIC CLARKE STACKMAN, having an address of 7513 West Treasure Drive, North Bay Village, Florida, 33141
parties of the second part,

WITNESSETH that the party of the first part, in consideration of One Dollar ($1.00) lawful money of the United States, and other good and valuable consideration, paid by the parties of the second part, does hereby hereby grant and release unto the parties of the second part, their heirs and assigns forever.

ALL THAT PIECE OR PARCEL OF LAND in the Town of Jay, County of Essex, State of New York, conveyed May 24, 1879 by Timothy Carpenter and wife -to- Ezra Fairbanks and George W. Armstrong as administrators of the Estate of Thomas Armstrong, deceased, in trust for the widow and heirs of said Thomas Armstrong, deceased, by deed recorded in the Essex County Clerk’s Office on December 12, 1879 in Liber 80 of Deeds at Page 387, said parcel is known as the Carpenter Farm, and is bounded north by the south line of Lots No. 162 and 163, in Maul’s Patent, east by the south and east branch of the AuSable River; on the south by what was formerly known as the Timothy Jaques Farm, now or formerly owned and occupied by Thos. Gorman, on the west line of Lot No. 120 Maul’s Patent, being all those parts of Lot No. 120 and 121 in Maul’s Patent, lying north of said Jaques Farm (now or formerly called the Callahan Farm) and west of said River and supposed to contain four hundred (400) acres of land, be the same more or less, and being the same premises conveyed by Ezra Fairbanks and George W. Armstrong as trustees for the widow and heirs of Thomas Armstrong, deceased, to Fred G. Carnes by Warranty Deed dated July 19, 1911 and recorded in the Essex County Clerk’s Office on December 1, 1914 in Liber 151 of Deeds at Page 489.

EXCEPTING AND RESERVING from the above described premises:

2. That 0.95 acre parcel described in deed: Carnes Granite Co., Inc. -to- The County of Essex, dated August 5, 1941 and recorded in the Essex County Clerk’s Office on August 13, 1941 in Liber 229 of Deeds at Page 93.

3. The Fishing Rights along the west bank of AuSable River described in deed: Carnes Granite Company, Inc. -to- The People of the State of New York, dated February 21, 1942 and recorded in the Essex County Clerk’s Office on April 7, 1942 in Liber 231 of Deeds at Page
496.

BEING a portion of the parcel conveyed by William M. Carnes and Alice M. Carnes, his wife, -to- Carnes Granite Co., Inc. by Warranty Deed dated September 29, 1924 and recorded in the Essex County Clerk's Office on September 27, 1940 in Liber 226 of Deeds at Page 283.

BEING the same premises conveyed by Warranty Deed from Carnes Granite Company, Inc. -to- Richard F. LaBrake, dated April 16, 1996 and recorded in the Essex County Clerk's Office on May 8, 1996 in Liber 1110 of Deeds at Page 64.

REFERENCE is hereby made to and the above description was taken from Warranty Deed dated April 16, 1996, Richard F. LaBrake -to- Bruce LaBrake and Brian LaBrake and recorded in the Office of the Essex County Clerk July 18, 1996 in Liber 1117 of Deeds at Page 105.

**Together** with the appurtenances and all the estate and rights of the party of the first part in and to the said premises,

**To have and to hold** the premises herein granted unto the parties of the second part, her heirs and assigns forever.

**And** said party of the first part covenants as follows:

**First**, that the parties of the second part shall quietly enjoy the said premises;
Second. That the said party of the first part will forever WARRANT the title to said premises.

Third. That, in Compliance with Section 13 of the Lien Law, the grantor herein will receive the consideration for this conveyance and will hold the right to receive such consideration as a trust fund to be applied first for the purpose of paying the cost of the improvement before using any part of the total of the same for any other purpose.

In Witness Whereof, the party of the first part has hereunto set his hand and seal the day and year first above written.

instrument.

SIGNED OF NOTARY PUBLIC

JAMES E. MARTINEAU JR.
Notary Public, State of New York
No. 02MA8019518
Qualified in Clinton County
SCHEDULE A

ALL THAT CERTAIN PIECE OR PARCEL OF LAND located in the Town of Jay, unincorporated Village of AuSable Forks, Essex County, New York described in a deed given by Robert A. Torrance to Benjamin Paul Coolidge and Evelyn Lucille Coolidge which deed was dated the 8th day of June, 1979 and thereafter recorded in the office of the Essex County Clerk at Volume 704, page 1 on the 13th day of March, 1980 which premises were therein described as Parcel I and Parcel II as set forth at Schedule A attached hereto and made a part hereof.

PARCEL I

ALL THAT TRACT OR PARCEL OF LAND being and lying in the Town of Jay, County of Essex, and State of New York, being apart of Lot 121, Maul's Patent lying on the westerly side of the east or south branch of the AuSable River bounded and described as follows: Beginning at the southeast corner of a 160 acre parcel of land conveyed by Fred G. Carnes and wife to Robert A. Torrance, the party of the second part herein on the 16th day of April, 1946, thence easterly on the division line between the Old Carpenter or Thew Farm, now owned by the party of the first part, and the Old Callahan Farm, now owned by Thomas Gorman, and in a straight line to the center of the east or south branch of the AuSable River; thence northerly along the center of said river as it winds and turns until it intersects a line made by the easterly extension of the northerly line, in the same course, of the 160 acre parcel aforesaid, thence westerly along said extended line to the northeast corner of the said 160 acre parcel; thence southerly along the easterly line of the 160 acre parcel to the place of beginning.

Also a right of way for a road for men, teams, vehicles and other equipment northerly over and across the property of the party of the first part to the state highway along the route of an old road on said lands.

It is hereby intended to convey all of the lands of the party of the first part in Lot 121 Mauls’ Patent lying easterly of the northerly and southerly lines of the 160 acre parcel aforesaid extended to the center of the south or east branch of the AuSable River including all of the right, title and interest of the party of the first part to any and all cut and peeled poplar trees now lying on said property.

Excepting and reserving lands heretofore conveyed to the State of New York for highway right of way purposes along the State Highway.

Also excepting and reserving fishing rights along the west bank of said river heretofore conveyed to the State of New York.

The above described premises is the same property heretofore conveyed on the 16th day of April, 1946 by Carnes Granite Company, Inc. to Robert A. Torrance by deed which was recorded on the 18th day of May, 1946 in Lib 246 of Deeds at page 85.

PARCEL II

All that tract, piece or parcel of land situate in the Town of Jay, County of Essex, and State of New York being a part of lots 120 and 121 in Maul’s Patent, and is also known as part of the Carpenter of Thew Farm, so-called, bounded described as follows: Beginning at a large iron post set in the ground for a corner in the southwest corner of said Thew Farm on the west line of Lot 120 aforesaid and on the line of the Callahan or Gorman Farm and running northerly on the said west line of Lot 120 aforesaid 160 rods thence at right angles easterly 160 rods thence southerly at right angles and parallel with the first mentioned line 160 rods to the north line of the Callahan or Gorman Farm thence westerly 160 rods to the place of beginning containing 160 acres, more or less, including all of the right, title and interest of the parties of the first part herein to all out and peeled poplar trees now on said property. Also a right of way for a road for men, teams, vehicles and equipment from the above described parcel over and across the lands of the Carnes Granite Company, Inc. to the State Highway along the line and route of an old road on said lands.
It is hereby intended to convey the title of Fred G. Carnes as sole heir and next of kin of Alice M. Carnes, former title holder, who died intestate.

The above described property is the same premises described in a deed dated the 16th day of April, 1946 executed by Fred G. Carnes and Lucy E. Carnes to Robert A. Torrance by deed which was recorded in the Essex County Clerk’s Office on the 16th day of May, 1946 in Liber 246 at page 84.

The party of the first part does hereby grant and convey all rights of way mentioned and described in the two parcels above described.

The above described premises are conveyed subject to any easement of record heretofore granted to the Ausable Valley Telephone Company, Inc. and the New York State Electric and Gas Corporation.

EXCEPTING from the hereinabove described premises all that certain piece or parcel of land conveyed by Benjamin Paul Coolidge and Evelyn Lucille Coolidge to Paul Kenneth Coolidge and Valerie Coolidge by deed dated the 1st day of June, 1994 and thereafter recorded on the 28th day of June, 1954 at Book 1064 of deeds, at page 122 in the Office of the Essex County Clerk.

SUBJECT to rights-of-way, easements, covenants, restrictions and other rights of record and to any state of facts which a personal inspection or accurate survey may reveal to the extent that they are presently in full force and effect.

The party of the first part does hereby grant and convey all rights of way mentioned and described in the two parcels above described.

The said Evelyn Lucille Coolidge died a resident of the Town of Jay, Essex County, New York on the 14th day of February, 1995 leaving the said Benjamin Paul Coolidge as sole surviving tenant by the entirety.

BEING the same premises conveyed by Benjamin Paul Coolidge to Paul Kenneth Coolidge by deed dated November 20, 2000, and recorded in the Essex County Clerk’s Office on November 28, 2000, in Book 1268 of Deeds at Page 128.

The said Benjamin Paul Coolidge died on March 21, 2006, a resident of the Town of Jay, County of Essex thereby terminating the previously established life estate interest that was created by a deed dated November 20, 2000, and recorded in the Essex County Clerk’s Office on November 28, 2000 in Book 1268 of Deeds at Page 128.

EXCEPTING from the hereinabove described premises all those certain pieces or parcels of land described in a deed given by Benjamin Paul Coolidge and Evelyn Lucille Coolidge to Randy E. Spoon and Nancy L. Spoon which deed was dated the 21st day of May, 1993 and thereafter recorded on the 22nd day of July, 1993 at Book 1042 of deeds, page 64 in the Office of the Essex County Clerk.

SUBJECT to Adirondack Park Agency Permit 93-372 issued August 4, 1994, the terms and conditions of which are binding upon the heirs, successors and assigns of the grantor and all subsequent grantees.
Do not accept this unless the raised seal of the City of Plattsburgh, New York, Register of Vital Records is affixed thereon. This is to certify that the Foregoing is a true copy of the record on file in the Office of Vital Statistics, Plattsburgh, New York.

I hereby certify that the within and foregoing was recorded in the Essex County Clerk's Office.

Joseph A. Provoncha
Essex County Clerk
SUMMARY AND AUTHORIZATION

Paul K. and Valerie Coolidge are granted an amended permit, on conditions, authorizing correction of lot numbers for a previously authorized three-lot subdivision in an area classified Low Intensity Use by the Official Adirondack Park Land Use and Development Plan Map in the Town of Jay, Essex County.

No transfer deed shall be recorded until this amended permit is recorded in the Essex County Clerk's Office. This amended permit shall expire unless so recorded on or before March 18, 2013 in the names of all persons listed on the first page hereof and in the names of all owners of record of any portion of the project site on the recordation date.

Nothing contained in this permit shall be construed to satisfy any legal obligations of the applicant to obtain any governmental approval or permit from any entity other than the Agency, whether federal, state, regional or local.
AGENCY JURISDICTION

The project as originally proposed consisted of subdivision of the 255±-acre project site into three non-shoreline building lots, two of which have corresponding shoreline non-building lots, and the construction of one single family dwelling. The proposed and after-the-fact subdivisions involving lands in a Low Intensity Use land use area and located within a designated river area are subject to Agency review jurisdiction as a rivers project pursuant to 9 NYCRR 577.5(c)(1). Also, the subdivision results in the creation of one non-building shoreline lot on the east side of Route 9N in a designated river area which is less than the minimum 50,000 square feet size triggering the need for a permit pursuant to Section 810(2)(b)(2) of the Adirondack Park Agency Act. Further, the subdivision involves wetlands and is therefore a Class A regional project pursuant to §810(1)(c)(1)(b) of the Adirondack Park Agency Act and is a regulated wetlands activity pursuant to 9 NYCRR 578.3(n)(1)(i).

Finally, the construction of a single family dwelling in a Low Intensity Use land use area and within one-quarter mile of a designated recreational river is a rivers project subject to Agency review pursuant to 9 NYCRR 577.4(a).

PROJECT DESCRIPTION AS PROPOSED

The project as originally proposed is described in Permit 93-372. The requested amendment involves correction of the facts recited in Conditions 7 in P93-372. Specifically, reference to lot numbers 1 and 2 was reversed. The correct listing of the lots approved is as follows:

- Lot 1 is 11.6± acres in size, was vacant when it was conveyed in June 1993 to Randy and Nancy Spoon as described in Finding of Fact 2b above. It is located in the southeast corner of the project site. Lot 1's corresponding shoreline lot is approximately less than one acre in size and has 450 feet of shoreline on the Au Sable River. No new land use and development is proposed for Lot 1 which will be used for recreational and buffer purposes. It is identified on the Town of Jay real property tax maps as parcel 17.2-1-20.21.
• Lot 2 is 12.68± acres in size, is vacant and is proposed to be conveyed by bona fide gift to Valerie and Paul K. Coolidge for the purpose of constructing one single family dwelling and a conventional on-site sewage disposal system. It has no corresponding shoreline lot. The proposed single family dwelling will be constructed no less than 180 feet from Route 9N and greater than 25 feet from the top of the severe slope along the highway. The dwelling will be two stories tall and will be served by a proposed well and conventional absorption trench on-site sewage disposal system, as shown on the site plan map. Access to the lot will be provided by existing easement on the existing driveway. It is identified on the Town of Jay real property tax maps as parcel 17.2-1-20.12.

• Lot 3 is 230.72± acres in size, is vacant and will be retained by Benjamin and Evelyn Coolidge. Its corresponding shoreline parcel is approximately 4.7± acres in size and has 2310± feet of shoreline. No new land use and development is proposed for this lot. It is identified on the Town of Jay real property tax maps as parcel 17.2-1-20.11 and is currently owned by Eric Stackman.

The project is illustrated by a photocopy of a survey map of Lot 2 entitled, "Survey Map Showing Land Being Conveyed to: Paul K. and Valerie Coolidge," dated March 31, 1994 and prepared by James C. Blaise, L.S. and by an untitled photocopy of the tax map showing the boundaries of lots 1 and 2 and the proposed single family dwelling on Lot 2. A reduced scale copy of the tax map cited above is attached as a part of this permit for easy reference. The original, full-scale maps and plans referenced in this permit are the official plans for the project.

CONDITIONS

BASED UPON THE FINDINGS BELOW, THE AMENDED PROJECT IS APPROVED WITH THE FOLLOWING CONDITIONS:

1. All conditions in Permit 93-372 remain in full force and effect unless specifically amended herein.

2. The amended project shall be undertaken as described in the request for an amended permit and the Project Description as Proposed herein, and in compliance with the Conditions herein. In the case of conflict, the Conditions control. Failure to comply with the permit is a violation and may subject the
3. This permit is binding on the applicant(s), all present and future owners of the project site and all contractors undertaking all or a portion of the project. Copies of this permit and all the approved maps and plans referred to herein shall be furnished by the applicant(s) to all contractors prior to undertaking the project, and to all subsequent owners or lessees of the project site prior to sale or lease. All deeds conveying all or a portion of the lands subject to this permit shall contain references to this permit as follows: "The lands conveyed are subject to Adirondack Park Agency Permit 93-372 issued August 4, 1994 and Permit 93-372A issued December 19, 2012, and reissued January 7, 2013, and January 14, 2013 the terms and conditions of which are binding upon the heirs, successors and assigns of the grantors and all subsequent grantees."

4. The Agency may conduct such on-site investigations, examinations, tests and evaluations as it deems necessary to ensure compliance with the terms and conditions hereof. Such activities shall take place at reasonable times and upon advance notice where possible.

5. No construction of buildings, subdivision of land, or other "land use or development" as defined in § 802(28) of the Adirondack Park Agency Act, not expressly authorized by this permit shall be undertaken without an additional Agency permit, amended permit, or letter of non-jurisdiction pursuant to 9 NYCRR Part 571.

6. All conditions stated herein shall apply to any hired contractor who shall also be responsible for compliance. The applicants and successors' in interest shall provide a copy of this permit and approved site plans to the contractor.

7. Not more than three additional principal buildings shall be allowed upon the 12.68±-acre Lot No. 2 after construction of the dwelling authorized herein and not more than four principal buildings shall be allowed on the 11.6±-acre Lot No. 1, and not more than 72 principal buildings shall be allowed on the 230.72±-acre Lot No. 3 unless the overall intensity guidelines of the Adirondack Park Agency Act or the Park Plan Map are amended or, pursuant to the adoption of an Agency-approved local land use program, refined, so as to permit additional principal buildings.
This is the maximum remaining principal building potential of the site, and the maximum may not be achieved because of site constraints or other development or environmental considerations.

The principal building limitation is not based on an accurate survey of the entire project site and may vary accordingly upon submission of an outbound survey of the site.

8. Within 150 feet of the centerline of Route 9N, no vegetation may be cut, pruned, limbed, trimmed, culled or otherwise removed. This condition shall not be deemed to prevent the removal of dead or diseased vegetation or of other vegetation that presents a safety or health hazard.

9. No structure except residential radio and television antennas or agricultural use structures shall exceed 40 feet in height without prior review and approval of the Agency. The height shall be measured from the highest point on the structure to the lowest point of existing grade or finished grade, whichever is lower.

10. No new land use or development shall occur on the project site where existing slopes exceed 25% as measured over any 50 foot horizontal distance. All earth disturbance associated with the herein approved development on Lot No. 2 shall be no less than 25 feet from such slopes.

11. All disturbed areas shall be reclaimed to a final grade of four horizontal to one vertical. All areas of bare soil shall be planted and successfully established with a permanent groundcover or grass by as soon as possible and no later than by October 1 of the year of undertaking. If successful planting is not completed by this date, the area shall be seeded with annual rye grass and mulched within 15 days of attaining final grade. The area shall then be successfully established with a permanent ground cover or grass the following spring.

12. The restrictions and standards of Agency regulations implementing the NYS Wild, Scenic and Recreational Rivers System Act (9 NYCRR 577.6) shall apply to all land uses and development (including the cutting of vegetation) on that portion of the project site located within 1,320 feet of the mean high water mark of the East Branch Au Sable River.

13. No new land use or development shall occur within 100 feet of the mean high water mark of the Au Sable River.
14. Any new on-site sewage disposal system installed on the project site shall comply with New York State Department of Health's "Wastewater Treatment Standards for Individual Household Systems" (10 NYCRR Appendix 75-A) and with Agency standards in 9 NYCRR Appendix Q-4.

15. The proposed conventional absorption trench on-site sewage disposal system shall be constructed at the proposed location on slopes of 15% or less and shall be at least 100 feet from any water supplies, bodies of water, wetlands and permanent or intermittent streams. Seepage pits (dry wells) shall not be used for sewage disposal.

16. The Agency may conduct such on-site investigations, examination, tests and evaluations as it deems necessary to ensure compliance with the terms and conditions hereof. Such activities shall take place at reasonable times and upon advance notice where possible.

17. At the request of the Agency, the applicants shall report in writing the status of the project including details of compliance with any terms and conditions of this permit.

18. Nothing contained in this permit shall be construed to satisfy any legal obligations of the applicants to obtain any governmental approval or permit from any entity other than the Agency, whether federal, State, regional or local.

Legal Interests of Others

19. This permit does not convey to the permittee any right to trespass upon the lands or interfere with the riparian rights of others in order to undertake the authorized project or subdivision, nor does it authorize the impairment of any easement, right, title or interest in real or personal property held or vested in any person.

FINDINGS OF FACT

Findings of Fact 1 through 15 which are contained in Permit 93-372 which was issued on August 4, 1994 and recorded on August 16, 1994 in the Essex County Clerk's Office in Book 36 of APA Permits at Page 146 remain in effect.
16. By letter dated November 19, 2012 and received at the Agency on December 3, 2012, a request was made to amend Adirondack Park Agency Permit 93-372 authorizing a subdivision of 255± acres into three lots and construction of one single family dwelling.

17. Condition 7 of P93-372 incorrectly reversed the labeling of Lots 1 and 2. The lots are correctly identified in this amended permit.

18. Lot 2 is now owned by Paul K. and Valerie Coolidge. Lot 3 is owned by Eric Stackman. Lot 1 has been divided into two parcels, one owned by Randy Spoon and the other by John Corrow. That subdivision is the subject of Agency enforcement case 2009-27.

19. Permit 93-372 was filed in a timely manner, the project was undertaken in accordance with conditions of the permit and, therefore, the project is deemed to be in existence.

20. Following re-issuance of P93-372A on January 7, 2013, the applicant contacted the Agency to seek a minor correction of the landowners’ names. This is a reissuance of P93-372A which was not recorded.

21. The requested amendment does not involve a material change in permit conditions, the applicable law, environmental conditions or technology since the issuance of Permit 93-372, therefore, the request is being processed pursuant to §809(8)(b)(1) of the Adirondack Park Agency Act.

CONCLUSIONS OF LAW

The Agency has considered all statutory and regulatory criteria for project approval as set forth in: Section 809(10) of the Adirondack Park Agency Act (Executive Law, Article 27) and 9 NYCRR Part 574; Section 24-0801(2) of the NYS Freshwater Wetlands Act (ECL, Article 24, Title 8) and 9 NYCRR Section 578.10; Section 15-2709 of the NYS Wild, Scenic and Recreational Rivers System Act (ECL, Article 15, Title 27) and 9 NYCRR Section 577.8. The Agency hereby finds that the project is approvable and complies with the above criteria, provided it is undertaken in compliance with the conditions herein.
PERMIT issued this 14th day of January, 2013.
