<p>In the Matter of the Application of</p> <p>BOJAN DIZDAREVIC Permittee</p> <p>for a permit pursuant to 9 NYCRR Part 578</p>	<p>Date Issued: October 22, 2024</p> <p>To the County Clerk: Please index this permit in the grantor index under the following name: 1. Bojan Dizdarevic</p>

SUMMARY AND AUTHORIZATION

This permit authorizes the establishment of a new on-site wastewater treatment system to be located within 100 feet of wetlands in an area classified Low Intensity Use on the Adirondack Park Land Use and Development Plan Map in the Town of Webb, Herkimer County.

This authorization shall expire unless recorded in the Herkimer County Clerk's Office within 60 days of issuance of a signed and notarized permit. The signed and notarized permit shall be recorded in the names of all persons listed above and in the names of all owners of record of any portion of the project site on the recordation date.

The project shall not be undertaken or continued unless the project authorized herein is in existence within five years of the date the permit is recorded in the Herkimer County Clerk's Office. The Agency will consider the project in existence when a certificate of occupancy has been issued for the single family dwelling referenced herein.

The project shall be undertaken in compliance with all conditions stated herein. Failure to comply with this permit is a violation and may subject the permittee, successors, and assigns to civil penalties and other legal proceedings.

This permit does not convey any right to trespass upon the lands or interfere with the riparian rights of others in order to undertake the authorized project, nor does it authorize the impairment of any easement, right, title or interest in real or personal property.

Nothing contained in this permit shall be construed to satisfy any legal obligations of the permittee to comply with all applicable laws and regulations or to obtain any governmental approval or permit from any entity other than the Agency, whether federal, State, regional, or local.

PROJECT SITE

The project site is a 3.29-acre parcel of land located on NYS Route 28 in the Town of Webb, Herkimer County, in an area classified Low Intensity Use on the Adirondack Park Land Use and Development Plan Map. The site is identified as Tax Map Section 48, Block 1, Parcel 26, and is described in a deed from Adirondack Estates, Inc. to Bojan Dizdarevic, dated August 14, 2023, and recorded August 14, 2023 in the Herkimer County Clerk's Office under Instrument Number 2023-3626.

The project site contains wetlands. Additional wetlands not described herein or depicted on the Site Plan may be located on or adjacent to the project site.

PROJECT DESCRIPTION

The project as conditionally approved herein involves installation of a new on-site wastewater treatment system to serve a new 1,500-square-foot single family dwelling.

The project is shown on the following maps, plans, and reports:

- A nine-page plan set titled, "Dizdarevich A-Frame Cabin," prepared by Timothy Paul Zota, P.E., dated February 9, 2024 (Building Plans); and
- A sixteen-page plan set titled, "Septic System Design," prepared by Terrence J. Thisse, P.E., dated July 25, 2024 (Septic Plan).

A reduced-scale copy of Drawing No. S-5 of the Building Plans (Site Plan) for the project, dated August 25, 2024, is attached as a part of this permit for reference.

AGENCY JURISDICTION

Pursuant to Adirondack Park Agency regulations at 9 NYCRR § 578.2, a permit is required from the Adirondack Park Agency prior to the establishment of the absorption field of any on-site wastewater treatment system within 100 feet of any wetland in the Adirondack Park.

CONDITIONS

THE PROJECT IS APPROVED SUBJECT TO THE FOLLOWING CONDITIONS:

1. The project shall not be undertaken until this permit has been recorded in the Herkimer County Clerk's Office.
2. This permit is binding on the permittee, all present and future owners or lessees of the project site, and all persons undertaking all or a portion of the project, for as long as the absorption field remains on the site. Copies of this permit and Site Plan shall be furnished by the permittee to all subsequent owners or lessees of the project site prior to sale or lease, and by the permittee and/or any subsequent owner or lessee to all persons undertaking any development activities authorized herein.

3. In addition to complying with all terms and conditions of this permit, all future activities on the project site shall be undertaken in compliance with the requirements of New York State's Adirondack Park Agency Act, Freshwater Wetlands Act, and the Adirondack Park Agency's implementing regulations [9 NYCRR §§ 570-588].
4. All deeds conveying all or a portion of the lands subject to this permit shall contain references to this permit as follows: "The lands conveyed are subject to Adirondack Park Agency Permit 2024-0035, issued October 22, 2024, the conditions of which are binding upon the heirs, successors and assigns of the grantors and all subsequent grantees."
5. This permit authorizes the installation of a new on-site wastewater treatment system in the location shown and as depicted on the Site Plan. Any change to the location, dimensions, or other aspect of the on-site wastewater treatment system or increase in occupancy of the associated single-family dwelling shall require prior written Agency authorization.
6. If installed within five years of the date of issuance of this permit, the on-site wastewater treatment system shall be constructed in conformance with the location and design shown on the Site Plan and Septic Plan. Construction of the system shall be supervised by a design professional (licensed engineer or registered architect). Within 30 days of complete system installation and prior to its utilization, the design professional shall provide written certification to the Agency that the system was built in compliance with the approved plans.

No on-site wastewater treatment system shall be installed on the project site more than five years after the date of issuance of this permit except pursuant to written authorization from the Agency.

7. The project shall be undertaken in compliance with the Stormwater Infiltration Trench/Pre-treatment detail depicted on the Site Plan.
8. The project shall be undertaken in compliance with the Silt Fence Detail depicted on the Site Plan.
9. When brought from off-site, all equipment, including but not limited to trucks, excavators, tractors, etc., and hand excavation tools such as shovels, rakes, and picks, to be used on the project site shall be clean and free of soil, mud, or other similar material. If washed on the project site, equipment shall be washed in one location to prevent the distribution of propagules among different wash sites.
10. Outside of the limits of clearing shown on the Site Plan, no trees, shrubs, or other woody stemmed vegetation may be cut, culled, trimmed, pruned or otherwise removed or disturbed on the project site without prior written Agency authorization, except for the removal of dead or diseased vegetation, rotten or damaged trees, or any other vegetation that presents a safety or health hazard.

11. The undertaking of any activity involving wetlands requires a new or amended permit.
12. There shall be no more than one principal building located on the project site at any time. The single family dwelling associated with the on-site wastewater treatment system authorized herein constitutes a principal building.

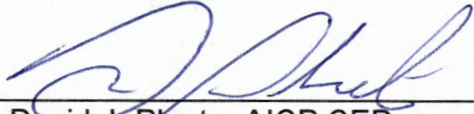

CONCLUSIONS OF LAW

The Agency has considered all statutory and regulatory criteria for project approval set forth in the Freshwater Wetlands Act and 9 NYCRR Part 574. The Agency hereby finds that the project authorized as conditioned herein:

- a. will secure the natural benefits of wetlands associated with the project, consistent with the general welfare and beneficial economic, social, and agricultural development of the state; and
- b. will be compatible with preservation of the entire wetland and will not result in degradation or loss of any part of the wetland or its associated values.

PERMIT issued this 22nd day
of October, 2024.

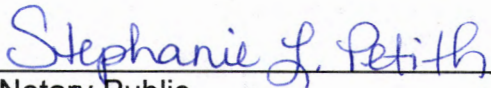

ADIRONDACK PARK AGENCY

BY: 
David J. Plante, AICP CEP
Deputy Director, Regulatory Programs

STATE OF NEW YORK
COUNTY OF ESSEX

On the 22nd day of October in the year 2024, before me, the undersigned, a Notary Public in and for said State, personally appeared David J.
