	<p>To the County Clerk: Please index this permit in the grantor index under the following names: 1. Christopher LeFevre</p>

SUMMARY AND AUTHORIZATION

This permit authorizes construction of a single family dwelling and guest cottage in an area classified Low Intensity Use on the Adirondack Park Land Use and Development Plan Map in the Town of St. Armand, Essex County.

This authorization shall expire unless recorded in the Essex County Clerk's Office within 60 days of issuance of a signed and notarized permit. The signed and notarized permit shall be recorded in the names of all persons listed above and in the names of all owners of record of any portion of the project site on the recordation date.

The project shall not be undertaken or continued unless the project authorized herein is in existence within five years of the date the permit is recorded in the Essex County Clerk's Office. The Agency will consider the project in existence when one of the authorized structures has been completed.

The project shall be undertaken in compliance with all conditions stated herein. Failure to comply with this permit is a violation and may subject the permittee, successors, and assigns to civil penalties and other legal proceedings.

This permit does not convey any right to trespass upon the lands or interfere with the riparian rights of others in order to undertake the authorized project, nor does it authorize the impairment of any easement, right, title or interest in real or personal property.

Nothing contained in this permit shall be construed to satisfy any legal obligations of the permittee to comply with all applicable laws and regulations or to obtain any governmental approval or permit from any entity other than the Agency, whether federal, State, regional, or local.

PROJECT SITE

The project site is a 0.87-acre parcel of land located on James Way in the Town of St. Armand, Essex County, in an area classified Low Intensity Use on the Adirondack Park Land Use and Development Plan Map. The site is identified as Tax Map Section 13.4, Block 2, Parcel 14, and is described in a deed from Mary Lou Gilmet and Cindy L. Gilmet to Christopher LeFevre dated December 13, 2021, and recorded December 30, 2021 in the Essex County Clerk's Office under Instrument Number 2021-6880.

The project site contains shoreline on Sumner Brook and is located within the designated Saranac River Recreational River area. The project site also contains wetlands that are associated with Sumner Brook. Additional wetlands not described herein or depicted on the Site Plan may be located on or adjacent to the project site.

PROJECT DESCRIPTION

The project as conditionally approved herein involves the construction of a single-family dwelling with attached garage and guest cottage.

The project is shown on the following map and plans:

- A six page of set of plans entitled "Chris LeFevre, Lot 21 James Way & Curtis Lane, Bloomingdale, NY 12913" prepared by Saranac Engineering Co. and dated May 11, 2024 (Septic Plans); and
- A hand drawn sketch entitled "5 James Way, Bloomingdale APA Project #2024-0129, Site Plan Map" prepared by Gyneth Spingarn, and dated May 31, 2024 (Site Plan).

A reduced-scale copy of the Site Plan for the project is attached as a part of this permit for reference.

AGENCY JURISDICTION

Pursuant to Adirondack Park Agency regulations at 9 NYCRR Part 577, a permit is required from the Adirondack Park Agency prior to any new land use and development on lands located within any designated recreational river area in the Adirondack Park.

CONDITIONS

THE PROJECT IS APPROVED SUBJECT TO THE FOLLOWING CONDITIONS:

1. The project shall not be undertaken until this permit has been recorded in the Essex County Clerk's Office.
2. This permit is binding on the permittee, all present and future owners or lessees of the project site, and all persons undertaking all or a portion of the project. Copies of this permit, Septic Plans and Site Plan shall be furnished by the permittee to all subsequent owners or lessees of the project site prior to sale or lease, and by the permittee and/or any subsequent owner or lessee to all persons undertaking any development activities authorized herein.

3. In addition to complying with all terms and conditions of this permit, all future activities on the project site shall be undertaken in compliance with the requirements of New York State's Adirondack Park Agency Act, Freshwater Wetlands Act, Wild, Scenic and Recreational Rivers System Act, and the Adirondack Park Agency's implementing regulations [9 NYCRR §§ 570-588].
4. All deeds conveying all or a portion of the lands subject to this permit shall contain references to this permit as follows: "The lands conveyed are subject to Adirondack Park Agency Permit 2024-0129, issued June 25, 2024, the conditions of which are binding upon the heirs, successors and assigns of the grantors and all subsequent grantees."
5. Subject to the conditions stated herein, this permit authorizes the construction of one single family dwelling with attached garage and a guest cottage (tiny house) on the project site in the locations shown on the Site Plan. The single family dwelling and guest cottage shall be no more than 40 feet in height, as measured from the highest point on the structure, to the lower of either existing or finished grade. Any change to the location of any authorized structure shall require prior written Agency authorization.
6. This permit authorizes the construction of one dock on the project site as depicted on the Site Plan.
7. The undertaking of any new land use or development not authorized herein on the project site within one-quarter mile of the Saranac River shall require a new or amended permit. The undertaking of any activity involving wetlands shall also require a new or amended permit.
8. Pursuant to the Adirondack Park Agency Act and Agency regulations implementing the Wild, Scenic and Recreational Rivers System Act, new structures are prohibited within 150 feet, measured horizontally, of the mean high water mark of the Saranac River.

Docks and boathouses as defined under 9 NYCRR § 570.3 are excepted from this requirement. Fences, poles, lean-tos, and bridges are also excepted from this requirement, except that no fence, pole, lean-to, or bridge greater than 100 square feet in size may be located within 75 feet of the mean high water mark.

9. Any on-site wastewater treatment systems on the project site installed within five years of the date of issuance of this permit shall be constructed in conformance with the location and design shown on the Septic Plan. Construction of the system shall be supervised by a New York State design professional (licensed engineer or registered architect). Within 30 days of complete system installation and prior to its utilization, the design professional shall provide written certification to the Agency that the system was built in compliance with the approved plans.

No on-site wastewater treatment system shall be installed on the project site more than five years after the date of issuance of this permit except pursuant to written authorization from the Agency.

10. When brought from off-site, all equipment, including but not limited to trucks, excavators, tractors, etc., and hand excavation tools such as shovels, rakes, and picks, to be used on the project site shall be clean and free of soil, mud, or other similar material. If washed on the project site, equipment shall be washed in one location to prevent the distribution of propagules among different wash sites.
11. Any new free-standing or building-mounted outdoor lights shall employ full cut-off fixtures that are fully shielded to direct light downward and not into the sky or toward Sumner Brook Lake or adjoining property.
12. Within 20 feet of the mean high water mark of Sumner Brook, no trees, shrubs or other woody-stemmed vegetation may be cut or otherwise removed on the project site without prior written Agency authorization, except for the removal of dead or diseased vegetation, rotten or damaged trees, or any other vegetation that presents a safety or health hazard.
13. There shall be no principal buildings located on the project site other than the dwelling authorized herein.

CONCLUSIONS OF LAW

The Agency has considered all statutory and regulatory criteria for project approval set forth in the Adirondack Park Agency Act, the Wild, Scenic and Recreational Rivers System Act and 9 NYCRR Part 577, and 9 NYCRR Part 574. The Agency hereby finds that the subdivision/single family dwelling authorized as conditioned herein:

- a. will be consistent with the land use and development plan;
- b. will be compatible with the character description and purposes, policies, and objectives of the Low Intensity Use land use area;
- c. will be consistent with the overall intensity guidelines for the Low Intensity Use land use area;
- d. will comply with the shoreline restrictions of § 806 of the Adirondack Park Agency Act;
- e. will not have an undue adverse impact upon the natural, scenic, aesthetic, ecological, wildlife, historic, recreational or open space resources of the Park or upon the ability of the public to provide supporting facilities and services made necessary by the project;
- f. will be consistent with the purposes and policies of the Wild, Scenic and Recreational Rivers System Act;
- g. will comply with the restrictions and standards of 9 NYCRR § 577.6; and
- h. will not cause an undue adverse impact upon the natural, scenic, aesthetic, ecological, botanical, fish and wildlife, historic, cultural, archeological, scientific, recreational or open space resources of the river area, taking into account the commercial, industrial, residential, recreational or other benefits that might be derived therefrom.

PERMIT issued this 25th day
of June, 2024.

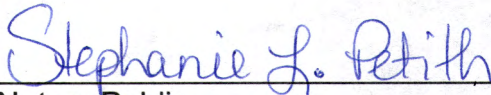

ADIRONDACK PARK AGENCY

BY: 
David J. Plante, AICP CEP
Deputy Director, Regulatory Programs

STATE OF NEW YORK
COUNTY OF ESSEX

On the 25th day of June in the year 2024, before me, the undersigned, a Notary Public in and for said State, personally appeared David J.
