## Motor Vehicle Access for People with Disabilities for the Use of State Land

### MAPPWD ROUTES

#### Access to:

Hunting

Fishing

Camping

Wildlife Observation

MAPPWD permit holders are permitted uncommon access to state lands administered by the New York State Department of Environmental Conservation (DEC).

Permit holders can use a permitted vehicle to travel beyond the reach of public roads, to areas where others must hike or bike. The permit provides access for those who seek solitude, connection to nature, undisturbed wildlife habitat, and inclusion with fellow sportspeople.

MAPPWD Routes have been carefully selected to protect natural areas and recreational activities. Access is restricted to designated routes only.

This list, updated June 2024, contains all currently permitted routes and supersedes all previous listings. All routes are subject to closure due to seasonal conditions or maintenance. Contact your DEC regional office for current information on specific routes.
